LAST MINUTE MEMORANDUM

DATE: September 7, 2004

TO: MEMBERS, STATE BOARD OF EDUCATION

FROM: Sue Stickel, Deputy Superintendent
Curriculum and Instruction Branch

RE: Item No. 21

SUBJECT: Immediate Intervention/Underperforming Schools Program (II/USP):
Proposed intervention for Cohort I, II, and III schools that failed to show significant growth

Attached are three tables that provide current Academic Performance Index (API) information on the II/USP Cohort I, II, and III schools subject to state intervention. Information includes the appropriate years of Base API, Growth API, and whether or not the school made schoolwide and comparable growth targets.

The schools listed in Attachments 1 and 2 represent those Cohort I, II, and III schools failing to demonstrate significant growth as part of the August 31, 2004, Schoolwide Growth API release and for which State Board of Education (SBE) action is recommended. These include 12 Cohort I schools, 60 Cohort II schools, and one Cohort III school for a total of 73 schools.

Schools listed in Attachment 1 failed to demonstrate significant growth this past year and as schools "on watch" are now recommended for state monitoring.

The school listed in Attachment 2 failed to demonstrate significant growth in either of two implementation years in the II/USP and is also recommended for state monitoring.

Schools listed in Attachment 3 have invalid 2004 API Growth data. Their status will be subject to further review and analysis applying the same alternative criteria used last year for schools with invalid APIs. These schools will be brought to the SBE for consideration in November 2004. In addition, there are likely to be more schools that fail to demonstrate significant growth as part of the October release of API Growth data. These schools could become subject to state monitoring at the SBE November 2004 meeting.
